# Why Precast Walls?

## **Because no two precast projects are the same.**

Precast walls are durable and resistant to impact and natural elements (mold, fire, and high winds). Wall panels are 100 percent customizable - shaped, sized and finished to meet any need.

Precast can take the shape of any mold and can replicate brick, block or signature aesthetics, such as photographs, monograms and/or custom designs.

On site, Precast offers added safety measures for construction crews as they remain within the enclosed building envelope.

## **The show must go on! With precast, it can.**

In countries such as Canada, where temperature swings and freezing conditions can limit the number of viable construction hours available each year. Precast provides a key construction schedule advantage.

## Benefits of Precast Walls

- *Consistent quality & precision*
- *Controlled casting conditions*
- *Can be produced with higher R-values*
- *Exceeds provincial fire ratings*
- *Sound resistant*
- *Durable*
- *Impact resistant*
- *Premium finishes*
- *Endless finishing options for colour, texture and shape*
- *Fewer man hours on site*  
- *Reduces project risk*
- *All weather installation*
- *Speed of construction*
- *Reduction in trades*

## The Fritz-Alder Advantage

You need a precaster with significant experience in both the specialized areas of fabrication and installation. We have been doing just that in Ontario since 1972, working with some of the most prominent designers, and meeting the requirements of the most exacting customers.

Fritz-Alder Precast's Advanced technology system offers innovative designs and provides efficient production schedules to meet project needs.

Our promise to our customers; ***be relentless in our pursuit of quality and precision***, from design to manufacturing to installation.

*A faster  
pace of  
construction  
with added  
safety  
measures*

**Ready,  
Set,  
GO!**

***THE BEST CHOICE FOR STRENGTH, DURABILITY & STYLE***

## Finished to meet your needs

Brick, stone, ribbed, stained, textured or smooth, with 500+ molds to choose from, what is your preference?

# Fritz-Alder Precast

## We've got this!

Elite customer service starts with a quality product that everyone can be proud of and a Fritz-Alder Precast commitment to deliver cost effective solutions to our customers.

We strive to create unique, value engineered precast possibilities for your project by combining our advanced technical knowledge with continuous innovation.

- *Trust* ▲
- *Partnership*
- *Compete*
- *Safety*

## Our experience in precast

Established

**1972**

From barns to solar to nuclear containers to superstructures, Fritz-Alder Precast has completed projects in all different shapes and sizes. Our years of experience in the precast concrete industry dates back to 1972.

Relentless quality control from engineering through to installation
